While rain appears to be in the forecast, it is our intention at this point in time to have all races on the racecourse proper; however, if we were to receive adequate rainfall, we will use our original timber course. In the month of September, the Hunt Valley area has received no more than 1 inch of rain.

Irrigation of the racecourse proper began on Thursday, September 16, 2010.

Should the race remain on the racecourse proper, the timber races will be run at a distance of about 3 miles and NSA approved portable fences will be used.

For further information about the racecourse, please do not hesitate to call Charlie Fenwick, Jr. at 410-666-4171.

The Shawan Downs course was inspected Monday afternoon, September 20, 2010.

Turf: The turf consists of a mixture of blue grass, native fescue & a "Kentucky 31" mix that averaged 5"- 6" in height at the time of inspection.

Smoothness: The course is smooth and even.

Compaction: Averaged 120.5 (Good) on the racecourse proper.

Moisture: Averaged 6.0 (Average) on the racecourse proper.
