Nominations and Entries

All nominations and entries for races described in this condition book are to be made at the prescribed times with the National Steeplechase Association (“NSA”) in accordance with its Rules of Racing (the “Rules”), which can be found on the NSA website, www.nationalsteeplechase.com. Copies of the current Rules may also be obtained from the NSA by calling 410-392-0700 or emailing courtneyreid@nationalsteeplechase.com.

Racing Authority

The race meeting at Virginia Gold Cup will be conducted in accordance with the rules of the Virginia Racing Commission, and the race meeting at Fair Hill will be conducted in accordance with the rules of the Maryland Racing Commission. All horsemen are urged to be familiar with the applicable Commission rules. All other races contained in this condition book will be conducted under NSA rules.

Every person entering a horse in a race to be run under the rules of the respective state Racing Commission, or the National Steeplechase Association, accepts the decision of the respective racing authority, the Directors of the National Steeplechase Association, or the Stewards of the meeting, as the case may be, on any question relating to a race or to racing.

Policies

In addition to the provisions of NSA Rules, horsemen are advised of the following policies and useful information:

Overnights and Official Notices

Overnights containing entries and other pertinent information for a race meeting are generally published Monday afternoon for race meetings occurring the following weekend. Horsemen are encouraged to examine such overnights carefully for errors, delayed closings and other information applicable to a particular race meeting. Any questions or concerns should be immediately brought to the attention of William Gallo, Director of Racing. Official Notices are published weekly during each racing season, typically on Mondays. They contain information concerning substitute races, course conditions (based upon inspections and quantified levels of moisture and compaction) for upcoming race meets, rule changes and other official determinations. Horsemen are urged to consult these Official Notices regularly for information that may impact the races described in this condition book.

Rider Fees

In the absence of a specified contract, the fee to a rider in a steeplechase race shall be as follows: \$150, or 10% of the money earned in all places (whichever is greater). The fee to a rider in a training flat race shall be \$50. In flat races with purses, the fee to a rider shall be as follows: \$100, or 10% of the money earned in all places (whichever is greater).

Pre-Race Testing

The Stewards may randomly select horses for pre-race testing. Those selected must report to a specified stall prior to leaving for the paddock. Failure to submit to this test will result in an automatic scratch.

Training Flat Races

All training flat races run under NSA rules (including Fair Hill) are sanctioned by the NSA, and, as such, all rules apply, including the rules on forbidden substances. **However, these races do not count toward a horse's official record.**

Horse Identification

All horses running under NSA rules must be tattooed. A horse is ineligible to start in a race when it has not been properly tattooed; provided, however, that if the horse can otherwise be identified to the satisfaction of the Horse Identifier, the Stewards, for good cause shown, may permit the horse to start, but not more than once, without a tattoo.

Shoes

No raised toes, front or rear, will be permitted in any race. A raised toe is defined as an extension of the shoe by more than 1/16 of an inch. Stickers, caulks and turndowns are not permitted. Block heels are permitted; however, the toe may not exceed 1/16 of an inch.

Rider Licensing Requirements/Insurance Coverage

A rider is required to have and maintain health insurance as a condition of licensure, and must provide evidence thereof at the time of application for a license. In addition, all riders are required to take a baseline IMPACT test.

An accident medical insurance policy (underwritten by Zurich North America) covers all licensed NSA riders participating in NSA sanctioned races.

Please note that the policy provides "excess" coverage, which means it does not provide any reimbursement for medical expenses that are payable under any other insurance available to the claimant.

This policy does not include the races at Fair Hill, MD, or the major race-tracks that host steeplechasing.

Allowance Weights

In all allowance and open hurdle races at NSA race meets, weights will be adjusted upward when the highweight is scratched at scratch time.

Course Inspection

A comprehensive course inspection is made prior to each race meet involving inspection of the grounds, analysis of the turf, fence and beacon placement, and a complete safety review. The findings are recorded on the NSA Official Notice Page and Overnight for review by Horsemen.

Horsemen's Relations

The NSA and its sanctioned race meets are committed to one of the horse industry's prime resources – Thoroughbred owners and trainers. If you have any special needs concerning licensing, credentials, book-keeping, racing silks, directions, etc. please do not hesitate to contact the NSA office: 410-392-0700

NSA MEDICATION GUIDELINES

1. Salix® (furosemide), pursuant to NSA supervised administration, is the only medication that can be administered to a horse within 24 hours of its race.
2. The administration of any adjunct medication within 24 hours of a horse's race is strictly forbidden.
3. There is a new medication category called **Controlled Therapeutic Substances**. This category contains a list of 30 therapeutic medications that have been recognized as necessary in the routine treatment of illness or injury in the horse. Withdrawal time guidance and uniform laboratory detection thresholds for these medications are being provided as a safe harbor for horsemen. You are strongly encouraged to restrict your use of medications to those on the Controlled Therapeutic Substances list, which will be amended from time-to-time. The current Controlled Therapeutic Substances list, together with recommended withdrawal times, dosage and testing detection thresholds is as follows:

Threshold: 1 ng/ml in urine

Dosage: Intra-nasal dose at 720 mcg (Note: Administration of albuterol other than via intra-nasal routes is not recommended. Use of therapeutic doses of oral albuterol even outside of the recommended withdrawal guidelines carries a substantial risk of exceeding the regulatory threshold.)

Horsemen are urged to avoid combining the non-steroidal anti-inflammatory drugs Flunixin (Banamine®), Ketoprofen (Ketofen®), Diclofenac (Surpass®), Firocoxib (Equioxx®) and Phenylbutazone (Butazolidin®). 4. Although five nonsteroidal anti-inflammatory drugs (NSAIDs) are contained on the Controlled Therapeutic Substances list - diclofenac, firocoxib, flunixin, ketoprofen, phenylbutazone - they should not be used in combination and only one of these NSAIDs may be present in a post-race sample.

5. It is recognized that there are medications that may be used in the treatment of illness or injury in the horse that are not on the Controlled Therapeutic Substances List and for which no treatment guidance or uniform testing levels are provided.

Horsemen and veterinarians are strongly cautioned to withdraw a horse from racing for a sufficient period of time after the administration of a medication not on the Controlled Therapeutic Substances list to ensure against a positive drug test. Substances that do not affect the organ systems of a horse such as antibiotics, antimicrobials, vaccines, etc. (except for procaine penicillin and levamisole) are not prohibited and are not the subject of testing.

6. Clenbuterol may not be administered to a horse within 14 days of its next race.

7. No intra-articular corticosteroid may be administered to a horse within 7 days of its next race. Administration of a total dose of 100 mg methylprednisolone acetate (Depo Medrol®) in one articular space will take approximately 21 days for the drug to fall below the testing detection level in plasma. For this and other reasons, **we strongly caution against the use of Depo Medrol® in the racing horse for at least 21 days prior to its race.**

8. A new penalty system designed to identify and penalize those who incur multiple medication violations will be implemented. Each medication violation will incur points. Medication violations in the Controlled Therapeutic Substances category will be identified as Controlled Therapeutic violations and not "positive tests" and these violations will have a lesser point value. Violations for drugs and medications not on the Controlled Therapeutic Substances list will incur double points. Trainers risk additional mandatory suspensions if they reach the points thresholds established under the model rule for multiple medication infractions.

Horsemen are strongly urged to take notice of the following medication alerts:

ENDOGENOUS SUBSTANCES

Endogenous substances are substances that naturally occur in the horse. It is possible, however, to elevate the the normal physiological concentration of the substance in the horse via administration. There are various reasons why this is done, but none are considered appropriate. Indeed, the primary purpose is to affect the performance of the horse. The improper administration of some endogenous substances can threaten the health and welfare of the horse. The following endogenous substances are subject to regulatory control.

COBALT

A blood specimen from a horse found to contain cobalt in excess of 25 nanograms per milliliter of blood plasma or serum shall be considered a positive finding. The Stewards and Judges shall be instructed to apply this regulation in the following manner:

1) A horse which tests for cobalt between 25 nanograms per milliliter of blood plasma or serum and 50 nanograms per milliliter of blood plasma or serum shall be placed on the vets list and not be permitted to start in a race until the horse tests for cobalt below 25 nanograms per milliliter of blood plasma or serum. All costs associated with any retesting shall be paid for by the owner of the horse.

2) A horse whose cobalt level exceeds 50 nanograms per milliliter of blood plasma or serum shall be disqualified, the trainer of the horse shall be suspended and/or fined at the discretion of the Stewards or Judges and assessed points under the multiple medication violation point system. As previously stated the horse shall be placed on the vets list and not permitted to start in a race until the horse tests for cobalt below 25 nanograms per milliliter of blood plasma or serum. All costs associated with retesting the horse shall be paid for by the owner of the horse.

Cobalt is considered a Class 3 substance under the ARCI Uniform Classification of Foreign Substances. Its Penalty Class is Class B.

GABA

GABA (gamma aminobutyric acid), a naturally occurring amino acid in the horse, has been identified as being administered, purportedly to calm a horse so that it remains calm through the paddock and into the post-parade on race day. Often, GABA is administered as a part of a substance called "Carolina Gold". It is believed that this substance is often given at or around Lasix time. Improper administration of GABA can threaten the health and welfare of the horse. Accordingly, the administration of exogenous GABA to a horse is prohibited.

The GABA testing threshold in the horse may not exceed 110 nanograms per milliliter in plasma/blood.

GABA is considered a Class 3 substance under the ARCI Uniform Classification of Foreign Substances. Its Penalty Class is Class B.

TCO2

The use of agents that elevate the horse's TCO₂ or base excess level above those existing naturally in the untreated horse at normal physiological concentrations is prohibited. The following levels also apply to blood-gas analysis:

The regulatory threshold for TCO₂ is 37.0 millimoles per liter of plasma/serum or a base excess level of 10.0 millimoles, and;

The decision level to be used for the regulation of TCO₂ is 37.0 millimoles per liter of plasma/serum plus the measurement uncertainty of the laboratory analyzing the sample, or a base excess level of 10.4 millimoles per liter of plasma/serum.

NSAID STACKING

Horsemen are urged to avoid combining the non-steroidal anti-inflammatory drugs Flunixin (Banamine®), Ketoprofen (Ketofen®), Diclofenac (Surpass®), Firocoxib (Equioxx®) and Phenylbutazone (Butazolidin®). Only one NSAID can be present in a post-race test sample below established thresholds. If more than one NSAID is

detected in a post-race sample above the established thresholds, it is considered stacking and is a medication violation subject to penalty.

The primary thresholds for the five NSAIDs are:

Diclofenac – 5 nanograms per milliliter in plasma;

Firocoxib – 20 nanograms per milliliter in plasma;

Flunixin – 20 nanograms per milliliter in plasma;

Ketoprofen – 2 nanograms per milliliter in plasma; and

Phenylbutazone – 2 micrograms per milliliter in plasma.

There are secondary thresholds for Flunixin, Ketoprofen and Phenylbutazone. They are:

Flunixin – 3 nanograms per milliliter in plasma;

Ketoprofen – 1 nanogram per milliliter in plasma; and

Phenylbutazone – 0.3 micrograms per milliliter in plasma.

There are three classes of NSAID stacking violations:

CLASS 1 (Penalty Class B):

2 NSAIDs above the primary threshold or 3 NSAIDs above the secondary threshold.

CLASS 2 (Penalty Class C):

1 NSAID above the primary threshold and 1 other NSAID above the secondary threshold but below the primary threshold.

CLASS 3 (fines only):

2 NSAIDs above the secondary threshold but below the primary threshold.

There are no points for a stacking violation. Points are assessed only for the underlying NSAID violation

PLEASE NOTE – All horses used in the administration studies exceeded 1,000 lbs.

When dosing a horse smaller than 1,000 lbs., trainers and veterinarians may need to consider decreasing the total dose or increasing the time of dosing prior to racing.

THIRD PARTY LASIX ADMINISTRATION PROCEDURES

NSA RATINGS SYSTEM 2017

For the third year, the NSA will utilize a ratings system.

Ratings handicaps are designed to expand opportunities for horses, owners, trainers, and jockeys. In 2015, ratings handicaps averaged nine starters per race – almost two horses above the average for all hurdle races.

The Handicap Committee will again consist of chartcaller Martin Chamberlin, journalist Joe Clancy and racecaller Will O'Keefe, with oversight by NSA Director of Racing Bill Gallo.

To be eligible for any Ratings Handicap, a horse must be entered in the Ratings system at least one week prior to the close of entries of such race.

Ratings will be assigned to hurdle or steeplechase winner only, ages four-years old and upward. In all Ratings Handicaps, high weights will be preferred.

A maiden special weight winner will receive an automatic rating of **116**.

A four-year-old that has won as a three-year-old will receive an automatic rating of **111**.

A maiden claiming winner will receive an automatic rating of **110** (for a \$25,000-\$20,000 claiming price win) or **105** (for a \$15,000-\$10,000 claiming price win).

A filly/mare restricted maiden winner will receive an automatic rating of **107**.

A horse with an official rating in another country will race on that figure for one American start.

In all Ratings Handicaps, once the race is drawn, the highest rated horse will be assigned 158 lbs. with all other weights adjusted accordingly based on the current ratings. If the highest rated horse scratches at scratch time, the next highest rated horse will assume top weight and all others adjusted accordingly, with those weights being final for the program regardless of further scratches.

The minimum weight in all Ratings Handicaps will be 140 lbs. not including apprentice allowances. Apprentice allowances may be claimed in Ratings Handicaps.

All ratings inquiries should be directed to the NSA Director of Racing, who will review those concerns with the Committee. Individual Ratings Handicap Committee members will not answer direct inquiries without review and consensus by the Committee.

THE 31st ANNUAL SPORT OF KINGS SERIES

The Sport of Kings Series is comprised of several designated races, offering premier purses on the NSA circuit. The series was introduced several years ago by former amateur rider and steeplechase promoter George Sloan, whose vision was to create racing opportunities, with lucrative purses, for the “younger” novice horses. It had an immediate positive impact on the horse inventory as well as the overall racing product and was considered one of the most innovative changes in the history of the sport.

Since its inception, the Sport of Kings Series has been expanded beyond the novice division to include races for maidens. For all such designated races, owners pay a 5% fee for any purse money earned. Those monies are held in the Sport of Kings Reserve Fund and distributed, when needed, to enhance race meets that offer and have hosted Sport of Kings races in the past. The distribution of funds is approved by a committee consisting of the NSA President, the SOTA President and the NSA Director of Racing.

Conditions for the 2017 novice races will be as follows for the entire year:

For Four-Year-Olds and Upward which have not won over hurdles prior to March 1, 2016 or which have never won three races, other than three-year-old.

The schedule of spring maiden and novice races is listed below. The series will be complimented by additional summer and fall races.
